## PROFILE

I finally have the opportunity to get the chance to do something that I have longed for many years.

The previous professions didn't have much in common with my future plans, but design always was my thing, plus a long-standing love for computers.

I hope that I will get a chance to prove to myself that my efforts were not in vain.

I will not write about myself how responsible person I am, I think is something that I can prove to you very quickly.

Believe that I am more than ready to work and improve myself in the fields that I need for further practice and I am looking forward to it.
